

CAULK-EZ Technical Data Sheet

Intended use:

CAULK-EZ is a unique, aerosol caulk tooling aid that enables all caulk users to achieve a perfect bead of caulk in a fraction of the time and without the mess. CAULK-EZ is formulated for all kinds of caulks and surfaces including stone, tile, and all solid surface products. It prevents excess caulk from sticking to either your fingers or to the adjacent surfaces. It also delivers a perfect bead of caulk both in terms of appearance and smooth edges thereby preventing cracking, peeling, and leaking. It will not stain even painted surfaces and when dry the adjacent surfaces can be painted. CAULK-EZ is non-flammable, odorless and one can covers up to 400 feet of caulk.

Application Method:

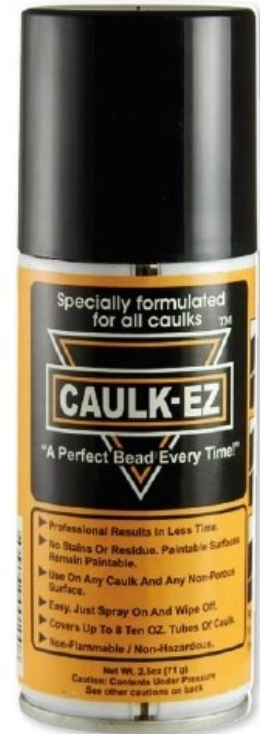

Simply apply a thin bead of caulk, spray on CAULK-EZ holding the nozzle 4 to 6 inches from the surface and wipe the caulk bead smooth applying light pressure.

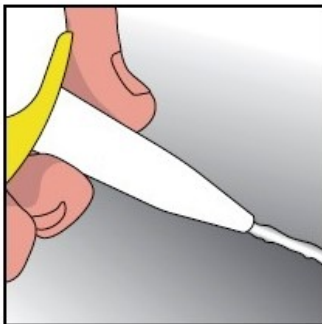

CAULK-EZ : The Caulk Tooling Aid

GET A PERFECT BEAD EVERY TIME
